# 1. INTRODUCTION

The Tobacco Board, flagship under the ministry of commerce and industry has decided to implement a country-wide portal to ease and facilitate procedures for traders associated with the Board. The software application will act as an end-to-end system wherein traders can handle their all activities entirely on-line starting from **Fresh Registration**, Renewals, Filling of Returns, RCMC Certificate registration and GSP certificate. The end-to-end portal has the following key modules:

- **Traders' Registration**
- Traders' Returns
- RCMC Certificate
- GSP Certificate

## TRADERS REGISTRATION MODULE – OVERVIEW

### Before you begin:

In the software application, traders will be identified with a unique ID. The traders will be required to register in the trader registration module as a pre-requisite for participation in the activities of the portal

Only the traders having active registration with the tobacco board can participate in online return filling, applying for RCMC & GSP Certificate and have authorized entry into the portal. Given the sensitivities, traders will be allowed to register in the portal only after their identity and the veracity of their claims have been verified.

Once registration is approved for the trader and the registration status is "**Registered**" the trader can file online returns under that particular category. Trader has to ensure that his registration with Tobacco Board is approved before filling his online returns which otherwise can also be tracked by him through the application.
